EDUCATION

Westmount Charter School High School Diploma GPA: 97/100; Honour Roll Relevant Coursework: AP Calculus BC; AP Computer Science Principles; Physics 30; AP European History	Calgary, AB Expected June 2028
---	-----------------------------------

HONORS & AWARDS

Canadian Computing Competition (CCC): Honour Roll, top 3% nationally (Group III)	2026
USA Computing Olympiad (USACO): Gold Division	2024 – 2026
Alberta High School Mathematics Competition: Top 20 in the Province	
CalgaryHacks 2026: 3rd Place, Tier 2 (500+ participants)	2026

EXPERIENCE

Algoverse AI Research AI/ML Researcher • AI Research on probing hidden states of LLMs to identify trace correctness using recoverability metrics, tree-based and logistic regression probes, and error injection. • Designed experiments, ran training and ablations, and built the eval pipeline. • Co-authoring a technical paper targeting submission to AAAI and ICLR conferences and workshops	Jun 2026 – Present
usamo.guide Co-Founder & Chief Operating Officer • Co-founded and lead a 40+ person team building a free olympiad platform with 50+ modules , from AMC 8 to USAMO • Grew to 3M+ site visits and 50K+ registered users in under two months through SEO and outreach • Architected the MDX content pipeline, tiered problem database, progress tracking, and auth (Gatsby, React) • Co-founded Olympiad4Everyone, an international proctored math contest with 1k+ competitors ; proceeds fund AMC fees for schools	Mar 2026 – Present
CodeTheCure Software Developer • Build AI/ML features with PyTorch, Hugging Face, and external APIs for a cancer research startup with 5k+ users • Co-ran the International CodeTheCure Hackathon, with sponsors including n8n and MIT Think. \$1k+ prizes. • Develop UI/UX and core functionality alongside high school researchers with lab experience at Yale, Stanford, and MIT	Mar 2026 – Present
Verve Consulting Software Developer & Consultant • Lead development and write grants and strategy for Capitalists4SharedIncome, a Forbes-featured nonprofit tackling economic insecurity • Analyze expansion feasibility and exit opportunities for The Handpulled Noodle, an NYC-based Chinese restaurant chain	Feb 2026 – Present
Ontario Competitive Mathematics Committee (OCMC) Member of Technical Staff • Develop computer vision pipelines that automate contest grading, cutting manual marking time • Build Next.js features for contest delivery and registration used by 500+ high school students across Ontario	Jun 2026 – Present

PROJECTS

SpinFilter Media Bias Detection Platform • Built in 24 hours an app scoring articles, audio, and video for bias on a 1–100 “Drama Index” (RoBERTa, Gemini) • Added unbiased rephrasing with diff highlighting, outlet bias lookup, and chunked audio transcription (Flask, React)	2026
Velocity Soccer Kick Speed Tracker • Deployed a CV app measuring kick speed from phone video via YOLOv8n detection and trajectory-fit speed estimation • Added two-point scale calibration, async job processing, and JWT auth (FastAPI, OpenCV, Postgres, Docker)	2026
Calgary Housing Price Neural Network Technical Report in Progress • Built a neural network from scratch in NumPy to predict Calgary home prices from the City’s open assessment data • Achieved R² of 0.986 (log) and 0.87 (dollars), ~\$66k MAE , and ~6% median APE on held-out data	2026

LEADERSHIP & ACTIVITIES

Westmount Charter School President, Math Club • Expanding contest training and organizing in-school and city-wide events, guest talks, and hackathons	Calgary, AB 2026 – Present
Mentor & Facilitator, STEM Engagement Program • Mentored 100+ gifted middle school students ; designed and led sessions on advanced problem-solving	2025 – Present
Team Member, Reach for the Top — academic trivia team; placed 1st in Alberta	

ADDITIONAL

Programming: Python, C++, C, TypeScript, JavaScript, SQL Frameworks & Tools: Next.js, React, Flask, FastAPI, PyTorch, Hugging Face, OpenCV, Tailwind, Postgres, Docker, Git Languages: English, Hindi (fluent); French (intermediate). Certifications: Harvard CS50 (edX, 2024)
